Presentations at Monday Membership Meeting July 18th

Our last meeting was cut short due to the low turnout caused by threatening weather. As a result, the presentations scheduled for June will be given in July.

If you have found your computer programming skills limited or not sure what the strange looking sockets on your radio are for, you might have been challenged trying to set up your radio for various features.

Not to worry, time permitting, we will have two presentations. One by Larry Amiot who will show how to use the buddy box features of a Spektrum radio. The other by Ron Wickett who will show how to set up a Futaba radio for triple rates! Don't miss it!

Interclub in August and July Fun Fly #3

We currently have our Interclub Fun Fly with the PropMasters scheduled for August. This event will be at our field which means the PropMaster get to choose the event. They have chosen to do a "2 Minute Dead Stick Spot Landing". Details will be clarified at our July Fun Fly #3 where we will practice this event, but it will involve a maximum 2-minute climb, throttle chop, and a dead stick spot landing.

We will be taking the opportunity to practice this by doing the same event at our July Fun Fly #3.

PLEASE NOTE, the July and September Fun Fly were originally schedule the day before our monthly meetings, but these have now been rescheduled for the Sunday following our meeting. The July Fun Fly will be on the 17th. We will have food following the event.

Once again, **Les Arnold** will be our Fun Fly chairman for this summer. If you have any questions, comments, or would like to volunteer, please let him know.

Meeting Notes for Membership Meeting

June 13, 2022

ATTENDANCE

With severe weather passing the area, only three members attended the meeting at the library. So, there were 7 including the officers, and 3 additional members on Zoom. A separate USB 1080p camera/microphone made the Zoom experience better.

OFFICER REPORTS

President: Hector Rivera thanked the members that showed up despite the tornado warning. Related to this, Ron Wickett asked if we had a means to broadcast a message to our members in situations like this. Any suggestions on how to implement this would be welcome.

Hector reported that Fun Fly #2 was a lot of fun. There were no crashes but a few good bumps! Hector provided some great sub sandwiches, chips, and drinks!

Next member meeting is July 11th and Board July 25th.

Vice President: Paul Kramer shared information on a couple of upcoming events. These were at the Fox Valley and Tri Village clubs.

Secretary: Scott Taylor had cards and badges for new members.

Treasurer: Larry Amiot reported on the club balance and said no new members were added since last month.

ENTERTAINMENT

We had planned to have a couple of presentations on how to better utilize your transmitters. But decided to reschedule due to the low turnout.

Paul Kramer had a “show and tell”. It was a laser cut kit that could be assembled into several different working art objects. He brought in a clock he had assembled. Below is another example from the kit.

DOOR PRIZES

Scott Taylor was the door prize winner. **Ralph Niedzwiecki** won the turkey.

Fun Fly #2 Results

By Les Arnold

Sunday June 12th Barnstormers Fun-Fly event which was "THE LIMBO" was a complete success!

The weather was an overcast and cool 63 degrees day with a firm wind out of the East from 12 to 17 MPH. The four pilots had their hands full with trying to control their planes under the LIMBO LINE. The windy conditions caused a challenge to all pilots.

Three pilots flew into the cushioned LIMBO POLES stopping their progress for more

points. Luckily no damage except for a broken prop. Les was the 1st place winner followed by Scott with a close 2nd.

I want to thank Ernie for the great information and assistance on setting this up. Merv gets a high five for being the Score Keeper. A big thank you to Hector for the great lunch he brought all of us! Those who didn't make it out, we are looking forward to the next TOUCHING DOWN EVENT.
